EXPERIENCE

BCE — Senior Full Stack Developer

May 2020 - PRESENT

Currently building a closed-loop network automation platform. I have been working as the technical lead since 2022. I have done a lot of work with kubernetes and python, having built and maintained a large pool of microservices.

MFS Freight — Full Stack Developer and IT

November 2015 - May 2020

Developer for a small business. Designed their website, did Python automation for industrial scale equipment, and developed a custom portal intranet. I also managed all IT systems including networking and tools.

The Shayne Gallery — Web Developer

October 2014 - August 2016

EDUCATION

Concordia University — Software Engineering (BEng)

2017 - 2022

John Abbott College — Web and Graphic Design (DEC)

2012 - 2015

SKILLS

python, javascript, react, vue, flask, fastapi, kubernetes, docker, GCP, AWS, helm, ELK, CI/CD, leadership.

Bio

I am a passionate software engineer interested in what it takes to build and maintain complex systems.

I'm a natural leader who is eager for mentorship.

I love to travel, camp, cycle, and see friends.

LANGUAGES

Fluent in English and French.
Prefer python.
